IMPORTANT NOTICE

The information and data contained in this publication are drawn from a variety of publicly available sources. Persons wishing to use this information do so at their own risk. CCCJ or JETRO cannot be held liable for the accuracy and completeness of the information contained in this publication.

On behalf of the Embassy of Canada, I would like to congratulate the Canadian Chamber of Commerce in Japan on the publication of the third edition of the Investment and Business Guide. The entry into force of the Comprehensive and Progressive Trans-Pacific Partnership (CPTPP) on December 30, 2018 solidified Canada and Japan's commercial partnership and created the conditions for a marked increase in bilateral trade and investment. In view of the complementarities between the Japanese and Canadian economies, and the scope and breadth of the terms of the Agreement, there is enormous potential for such growth in the years ahead. Our Embassy is working hard to raise awareness of the CPTPP, and is committed to helping Japanese and Canadian businesses seize the opportunities that it has created. We are encouraged by the successes achieved to date, and invite the businesses that drive bilateral trade and investment, as well as new players to the market, to consider how the Agreement can contribute to their operations.

We greatly value Japan's role as Canada's largest source of investment from Asia and welcome the contributions that Japanese investments are making to Canadian growth and prosperity. Japanese investors benefit from a wide range of advantages afforded by Canada's highly competitive investment environment, including unrivalled market access to major economies, political and economic stability, a sound business regulatory framework, and a highly-skilled workforce. Likewise, many Canadian businesses are prospering in the Japanese market. More than 100 Canadian companies have established a permanent presence in Japan to take advantage of business opportunities in the world's third largest economy.

Canada-Japan ties have never been stronger, and remain anchored in shared values and a common outlook on many global issues. Against the backdrop of an increasingly complex international environment, it is more important than ever that we work together to defend and strengthen those values, including our abiding commitment to open markets and free trade. Both countries played key roles in shaping the rules-based international trading framework from which we have all benefited, and are now at the forefront of efforts to bring about its modernization. From a bilateral perspective, I am confident that the state-of-the art commercial terms now enshrined in the CPTPP will help to drive our trade and investment flows to new heights. Considering as well Canada's unparalleled value proposition, there has frankly never been a better time for Japanese investors to consider opportunities in Canada.

I encourage you to read this Guide carefully and to consider contacting our team of Trade Commissioners at the Embassy of Canada who stand ready to assist you in exploring all that Canada has to offer Japanese businesses.

Yours Sincerely,

Ian Burney

Ambassador of Canada to Japan

I would like to extend my heartfelt congratulations on the publication of "Invest Japan 2020 / Invest Canada 2020." I would also like to express my highest regard for and deepest gratitude to those who worked hard to make it possible. Last year was an important milestone for the Japan-Canada relationship. Against the background of the 90th anniversary of diplomatic relations,

Prime Minister Abe came to Canada to meet with Prime Minister Trudeau in April. During the meeting, the leaders agreed to strengthen the strategic partnership under their shared vision of "Free and Open Indo-Pacific" region. This was followed by high-level dialogue on multiple occasions, including Mr. Trudeau's attendance at the G20 Osaka Summit and Minister Champagne's visit to Nagoya during the G20 Foreign Ministers' Meeting – his first foreign travel as Minister of Foreign Affairs.

On the economic front, the two countries held the 29th Japan-Canada Joint Economic Committee (JEC) meeting in last December, where the delegates discussed wide-ranging issues, including the strengthening of the free trade system through WTO reform and the CPTPP, and priority areas of cooperation such as energy, infrastructure, science and technology, tourism and environment. It is my hope that, going forward, we will continue to build on these good bilateral relations particularly in the Asia-Pacific context, aiming for many concrete actions for us to pursue.

To this end, I would like to mention Canada's technology industry that has been drawing worldwide attention in recent years. Thanks to its abundant natural resources, Canada has long been a leader in energy and mining as well as agriculture, forestry and fishery. Increasingly, however, it has also been recognized as one of the leading countries in advanced technology, such as Artificial Intelligence (AI) and quantum computing. With the help of its competitive edge, including relatively low cost of living, favourable working conditions, fast-track work visa processing for skilled workers, and the safe living environment, Canada is already home to multiple technology ecosystems across the country, where top-class researchers, universities, research institutions, investors and start-up enterprises converge and co-evolve cooperatively. It is my belief that this booklet will help Japanese and Canadian companies to actively seize untapped business opportunities.

On our part, the Embassy and four Consulates General of Japan in Canada, in close coordination with JETRO and Canadian governments, will spare no effort to support those companies. Finally, I would like to express my sincere hope that Japan's investments will promote the growth of Japanese and Canadian companies, bringing prosperity to both countries along the way.

His Excellency

Yasuhisa Kawamura

Ambassador Extraordinary and Plenipotentiary of Japan to Canada

Dear Readers,

On behalf of the Canadian Chamber of Commerce in Japan, I wish you a warm welcome to the 2020 Investment Guide! We're very happy to be partnering once again with JETRO. Much has happened since the previous edition was released: we are now a little over one year in to the CPTPP, which has played a significant role in boosting trade between Canada and Japan. This is indeed a very exciting time to be a stakeholder in Canada-Japan relations!

With this as a starting point, let's take a brief look at where we currently stand. As of this writing, there are at least 100 Canadian companies with offices set up in Japan. On the flipside, Japan is the biggest source of direct investment in Canada from Asia, with \$28.8B in fiscal 2018. Add to this the shared values and warm relationship between Canada and Japan, and we see potential for so much more.

The CCCJ is the go-to business community for stakeholders in the Canada-Japan relationship. As such, we are committed to do what we can to raise awareness and make meaningful connections, and this guide is part of that mission.

First and foremost, the Guide is meant to provide its readers with valuable, accurate information regarding provincial industry trends, larger "supercluster" trends across swathes of Canada, and information about the key prefectures in Japan welcoming investment from Canada.

Secondly, this Guide is also a signifier of the Chamber and its members' presence across Canada, Japan, and beyond. Through our distribution network, it will be physically present in the offices of key stakeholders in the Canada-Japan relationship.

Last but not least, the Guide contains more than just industry information – within its pages is also a directory of the CCCJ's members, precisely the organizations that anyone interested in investment in Canada or Japan would want to engage with.

Combining these three elements, we're confident that the CCCJ's 2020 Investment Guide will provide readers a very strong platform to pursue their Canada-Japan business. And if you identify as a fellow stakeholder of Canada Japan relationship but are not yet part of the Chamber community, please consider joining - It's with a strong community that we are able to make a bigger difference!

Neil van Wouw

Chairman

Canadian Chamber of Commerce in Japan

Dear Readers,

JETRO focuses on promoting investments into Japan, expanding agri-food exports, and supporting overseas market access for medium and small-sized Japanese enterprises under the growth strategy of Japanese government. JETRO Toronto is keen to assist innovative Canadian companies interested in investing and bringing their unique technologies and business models into Japan, so it is important to provide information to all Canadian companies regarding the Japanese market as an investment destination.

Since October, 2018, we have held a series of reverse pitch events in key innovation ecosystems across Canada called Generating Innovation with Japan (GIJ) providing business opportunities between Japanese companies that are conducting open innovation and Canadian startups that have advanced technologies and solutions. As a result, more Canadian startups are considering entering Japan.

We created a business guide (Canada in Japan | Japan in Canada) in collaboration with the Canada Chamber of Commerce and Industry in Japan as a helpful information booklet in 2017. It is a compact yet information-rich booklet that can be used by both Canadian companies looking to do business with Japan and Japanese companies considering business in Canada. We updated the content for the first time in two years so we hope that all Canadian companies that are considering business in Japan or are interested in the Japanese market will be able to utilize this resource.

At our JETRO Toronto office, we have proudly set up a "Canada Japan Business Promotion Window" in November, 2016, and we will continue to make more efforts to provide information and consultations on bilateral trade and investment to further expand and deepen the business relationship between Canada and Japan.

Talk to JETRO first!

Takuji Sakai

Executive Director

JETRO Toronto

INVESTING IN JAPAN

PROMISING MARKETS & SECTOR ADVANTAGES

Japan welcomes foreign business investments and offers many competitive advantages:

JAPAN'S RE-EMERGENCE

The appeal of the Japanese market is increasing through the economic growth of Abenomics. The government is strengthening its efforts to attract foreign companies and visitors, aiming to open up the Japanese market.

Attracting foreign companies

- Designation of National Strategic Special Zones
- Easing requirements of highly skilled foreign professionals

Tokyo Olympic Games and Paralympic Games 2020

The economic ripple effect of the decision to hold the 2020 Olympic Games is estimated at ¥ 3 trillion, and job creation at approximately 150,000 jobs nationwide.

SOPHISTICATED MARKET

3rd ranked in the world.
Japan's GDP is around ¥ 500 trillion.

52 companies out of the "Fortune Global 500" have their HQ in Japan and cited "**the massive size of market**" as an attractive advantage.

INNOVATION HUB

World-class in research funding and number of researchers
Research funding as a percentage of GDP is ranked 1st among G7 countries. Japan also ranks 1st in the world by numbers of patents filed.

BUSINESS-FRIENDLY INFRASTRUCTURE

Supporting business with a well-developed social infrastructure

Japan's business environment is highly evaluated by international organizations.

Nearly 80% of foreign companies validate the well-maintained service and transportation infrastructure as an advantage.

COMFORTABLE LIVING

A country where you can live safely and pleasantly with cities that rank among the most "livable" in the world.

- 1st ranked Asia – Global Peace Index
- Longest life expectancy for women in the world
- Well developed medical infrastructure

BIOTECHNOLOGY
DRUGS & MEDICINES
HEALTHCARE & WELFARE
MEDICAL DEVICES

Japan, with a share of around 10% in both the global pharmaceutical product and medical equipment markets, is the world number two market next to the US. A number of foreign companies have entered the Japanese market and are operating in various fields as major players.

Efforts to extend a healthy life expectancy are being strengthened in response to the declining birth rate and aging population.

To obtain a full version of this text, please visit
www.jetro.go.jp/en/invest/region/icinfo/

**HEALTHCARE &
MEDICAL STRATEGY**

- 1 Seamlessly connect stages from R&D to commercialization
- 2 Promote the development of new health care services regarding medical treatment, nursing care, and health, such as health promotion, disease prevention and everyday life support.
- 3 Aim to realize efficient and high-quality medical services by utilizing information and communication technology (ICT)

**PHARMACEUTICAL
PRODUCTS**

Imports of foreign drugs on the increase due to the growth strategy for pharmaceutical industry.

MEDICAL DEVICES

The domestic market size of medical devices in 2013 was 2.6757 trillion yen, up to 103.2% from that of the previous year. The value includes imports of 1.3008 trillion yen from foreign companies, accounting for 48.6% of the total.

**REGENERATIVE
MEDICINES**

Against the backdrop of expectations for cure of intractable diseases, market expansion is expected with establishment of the business environment.

SERVICES

Rapidly expanding healthcare market due to medical system reform.

- 1 Nursing care ICT
- 2 Tailor-made medicine market
- 3 Self-care health promotion equipment and service markets
- 4 Market created by the patient-requested treatment system
- 5 Market created by integrated community care system

**GOVERNMENTAL
EFFORTS**

- Efforts to assist pharmaceutical manufacturers in improving the environment for developing new drugs
- Enforcement and amendment of laws

RENEWABLE ENERGY
ENERGY (SMART GRID)
BATTERY STORAGE

Boost renewable share to 22-24% of the total by FY2030
The Great East Japan Earthquake in 2011 has brought about various influences on the energy environment in Japan. The Great East Japan Earthquake caused a series of power plants to shut down, leading to a decline in energy self-sufficiency.

Given these circumstances, the Agency for Natural Resources and Energy, METI, compiled a “Long-term Energy Supply and Demand Outlook (Energy Mix)” in July 2015 as the new energy policy toward FY2030. According to the energy supply-demand forecast in FY2030, renewable energy power generation will expand to reach about 22% to 24% of total power generation.

To obtain a full version of this text, please visit
www.jetro.go.jp/en/invest/region/icinfo/

24% by 2030
Renewable energy power generation will expand to reach about 22% to 24% of total power generation.

RENEWABLE ENERGY MARKETS
Promoting the well-balanced renewable energy sources by shifting from the heavy dependence on PV power source.

- **Photovoltaic power generation**
The market scale of photovoltaic systems is considered to have expanded up to 3 trillion yen in FY2014.
- **Wind power**
In the wind power generation system market, focus is placed on offshore wind power generation in addition to the traditional land-based variety.

ELECTRICITY RETAIL MARKET
With full liberalization, new electric power suppliers' sales are expected to expand. Electricity retail became fully liberalized as of April 1, 2016, and it is now possible for new entrants or new electric power suppliers to sign a power contract of 50kW or less for general households and shops formerly provided only by the regional General Electric Utilities. The market is estimated to be about 8 trillion yen.

SMART METER MARKET
12 million units are scheduled to be introduced from FY2016 to FY2018.
Electricity, gas and other energy resource distribution networks will spread to wider areas and form huge systems. Smart meters are essential to infrastructure in its realization.

GOVERNMENTAL INITIATIVES

- Review of FIT facility investment “feed-in tariffs (FITs)” for renewable energy
- Electricity System Reform (retail liberalization)
- Gas System Reform (gas market liberalization)
- Approaches toward new energy development

ICT, INFORMATION & COMMUNICATIONS TECHNOLOGY

CLOUD COMPUTING

DATA CENTERS

AI

FINTECH

Progress in the development of ICT infrastructure and the use of ICT helps develop the entire industry

The ICT industry has been rapidly growing and changing worldwide with the expansion of smartphones and cloud services. The changes range widely from content platforms or upper layer industry, the ICT service industry including B2B solutions or data center businesses, the integrator industry responsible for system construction, telecommunications carriers establishing mobile and fixed communications, and telecommunications equipment vendors providing telecommunications equipment, to terminal makers manufacturing smart phones or liquid crystal televisions.

To obtain a full version of this text, please visit
www.jetro.go.jp/en/invest/region/icinfo/

ATTRACTIVE MARKET FIELDS

CLOUD MARKET

The market is expanding due to successful cases in utilizing cloud infrastructure.

Hybrid cloud and multi-cloud methods gain increasing recognition and more companies are switching from on-premises computing to cloud computing.

AI

ARTIFICIAL INTELLIGENCE

The newly formed AI market will have a great impact on various industries in the future.

AI technologies are booming and major cloud vendors have started services utilizing AI functions which has lowered the technical and cost barriers to using big data.

DATA CENTERS

The expansion trend continues due to business continuity measures and increasing data volume.

The data center market remains robust due to the increasing data volume handled by companies with the advent of the big data era.

GOVERNMENTAL EFFORTS

Active efforts to realize a society in which ICT is utilized

- Government efforts toward the advent of the IoT, big data, and artificial intelligence era
- Subsidies for the IoT field

FINTECH

The market is a promising market in which the integration of industry, finance and IT creates new services

“Cashless payment,” has become a national goal in view of a rapid increase in tourists from abroad visiting Japan for the 2020 Tokyo Olympic and Paralympic Games.

IoT/M2M

The development of service-oriented “things” raises expectations for the formulation of a large market.

IoT (Internet of Things) has recently proliferated. A wide variety of things connect and exchange information over the Internet, creating new added-value.

SHARING ECONOMY

The presence of foreign technology companies and new business models fosters innovation and adds value to the diversifying lifestyles of Japanese people.

ELECTRONIC COMPONENTS, DEVICES

SEMICONDUCTORS ELECTRONIC DEVICES PRECISION MANUFACTURING

Japan has the third largest electronics manufacturing industry in the world and is home to two of the top 10 semiconductor buying companies, which also are top semiconductor producers and customers for semiconductor manufacturing equipment.

According to Japanese industry, production by the Japanese electronics/ICT industry increased especially for displays, server/storage equipment, electro-medical equipment and electronic measuring equipment, increasing the market for semiconductors.

International Trade Administration
www.trade.gov/topmarkets/pdf/Semiconductors_Japan.pdf

To obtain a full version of this text, please visit
www.jetro.go.jp/en/invest/region/icinfo/

ATTRACTIVE MARKET FIELDS

IT MANUFACTURING

Toyama and **Yamagata** prefectures are home to a concentration of innovative, leading-edge IT manufacturers.

IT SERVICES

Ishikawa prefecture is home to one of the largest information services industry concentrations in Japan and has a number of globally renowned companies.

OPTICAL TECHNOLOGIES

Core technology enterprises in **Shizuoka** prefecture are pushing ahead with the development and practical application of basic technologies to support next-generation industries.

LED

Some of the world's leading LED companies as well as research and educational institutions engaged in relevant cutting-edge research are located in **Tokushima** prefecture.

SEMICONDUCTORS

The growing presence of a brain trust base in "Silicon Island Kyushu" produces some **5% of the world's semiconductors**. A large number of major semiconductor manufacturers and trade partners are also establishing facilities in **Iwate** prefecture.

RESEARCH

There is a concentration of research-oriented companies in fields such as optical technology, precision machining, and advanced basic materials in **Saitama** prefecture.

SPECIAL ECONOMIC ZONE

Corporate expansion is accelerating to **Okinawa** which is a "Special Economic Zone" in Japan.

MEDICAL DEVICES

Miyazaki prefecture in the eastern Kyushu region is the country's leading base of blood and blood vessel-related medical equipment industries.

AUTOMOBILE & TRANSPORT EQUIPMENT

CAR MANUFACTURING AEROSPACE SHIPBUILDING

The automotive sector currently employs over 5.5 million people in Japan, or 8.7 percent of Japan's workforce are employed in automotive manufacturing and related industries. Within Japan, there are currently 78 factories in 22 prefectures that build cars.

Auto parts manufacturing accounts for over 600,000 jobs in the sector, and another 390,000 jobs are allocated to the production of raw materials and basic equipment used in automotive manufacturing. The sector is influenced by new environmental standards. Japan's high-tech car industry is pioneering electric vehicle use, installing charging points and attempting to set a new global standard.

ATTRACTIVE MARKET FIELDS

5.5 MILLION

people in Japan work in the automotive sector.

LARGEST IN THE WORLD

Aichi prefecture possesses a concentration of next-generation automotive and automotive-related companies which are among the largest in the world.

MANUFACTURING CENTER

Nagoya-city is Japan's largest manufacturing center with clusters of industries in automobiles and aircrafts.

MACHINERY

Hiroshima prefecture is a manufacturing hub of machinery, metal processing, and moulding, mainly for the automotive industry.

AEROSPACE

Major Japanese aerospace companies and automobile manufacturers concentrated in Tochigi prefecture have established the Tochigi Aerospace Industry Promotion Association and the Tochigi Auto Industry Development Association.

HUB PORT

Niigata Port aims to become a hub port along the Sea of Japan accumulating industries to the areas around the port, strongly supporting business entering the aircraft industry.

GLOBAL OPERATIONS

Kanagawa prefecture hosts a growing number of car industry operations including the R&D base of Mercedes-Benz and Nissan's Global Headquarters.

R&D

Mie prefecture is a hub for both factories with R&D and manufacturing functions, giving instructions and providing support to other factories in the country and overseas.

AGRICULTURE, FOOD PRODUCTS

AGRICULTURE FISHERY HEALTH FOOD PRODUCTS

Japan enjoys global popularity of its cuisine, and Japanese food also enjoys a reputation for promoting health and longevity with its traditional emphasis on rice, fish and seasonal ingredients.

In 2013, UNESCO added “Washoku – traditional dietary cultures of the Japanese” to its Representative List of the Intangible Cultural Heritage of Humanity.

To obtain a full version of this text, please visit
www.jetro.go.jp/en/invest/region/icinfo/

ATTRACTIVE MARKET FIELDS

BRAND

Hokkaido prefecture is famous for its “Hokkaido branded” agricultural and fishery products.

HIGH-VALUE PRODUCTS

Miyagi is partnering with local industry to develop high-value-added products that make use of the prefecture’s agricultural and fisheries resources.

FOOD & MEDICINE

New functional food products are created by the fusion of Food and Medicine in **Shizuoka** prefecture.

Industry-academia-government collaborations are taking place in **Saga** prefecture specializing in the development of functional health food products.

FOOD MANUFACTURING

The food manufacturing industry has grown in **Kagoshima** prefecture, and a large number of food-related companies are concentrated there due to its abundance of agricultural and marine products.

HEALTH FOOD

Niigata-city is one of the capitals of Japan’s food industry and is home to beverage and health-related food product manufacturers.

FOOD VALLEY PROJECT

The “**Food Valley Tochigi**” project promotes a wide range of food-related industries in this region.

RICH RESOURCES

Okayama-city has rich agricultural and fishing resources and is home to numerous large-scale food industries.

BASIC MATERIALS

Ehime prefecture is home to major companies in basic material sectors (pulp, non-ferrous metals, chemicals, high-function fibers)

BUSINESS GROWTH

Miyazaki prefecture has rich agricultural resources and food-related business is expanding.

THE COMPREHENSIVE AND PROGRESSIVE AGREEMENT FOR TRANS-PACIFIC PARTNERSHIP (CPTPP)

The Comprehensive and Progressive Agreement for Trans-Pacific Partnership (CPTPP) is a trading block that represents 495 million people with a combined gross domestic product of CAD \$13.5 trillion – a full 13.5% of global GDP. The CPTPP strengthens the rules-based trading environment and provides enhanced market access for exporters and investors in Japan.

SECTORAL OPPORTUNITIES IN JAPAN

Investment

CPTPP investment rules provide greater certainty and protection for investors, while preserving the rights of federal and provincial governments to legislate and regulate in the public interest. In areas such as energy, mining, manufacturing, financial services and professional services, Canadian investors enjoy transparent and predictable access to CPTPP markets, including Japan. Strong rules help to ensure that Canadian investors are treated in a fair, equitable and non-discriminatory manner, allowing them to compete on an equal footing with other investors in CPTPP countries. Canadian investors also have access to an investor-state dispute settlement mechanism that is independent and transparent.

Agriculture and agri-food

Japan is the world's largest net importer of food and Canada's third largest market for agri-food and seafood products, with exports totaling \$4.2 billion (average 2015-17). The CPTPP will create significant opportunities to increase Canada's market share in products like beef, pork, grains and oil seeds, functional foods and nutraceuticals. For example, with regard to pork products, which are subject to tariffs of up to 20%, Japan will eliminate its tariffs on Canadian imports within 10 years of entry into force. On beef, the tariffs of 38.5% on fresh/chilled and frozen beef, as well as tariffs of up to 50% on certain offal, will be reduced to 9% within 15 years of entry into force. Similarly, for wheat, Canada will have access to a Canada-specific annual quota for food wheat which starts at 40,000 tonnes and grows to 53,000 tonnes within six years of entry into force. Mark-ups within this country-specific quota will be reduced by 45% or 50%.

Seafood products

Canadian exporters of seafood products benefit from the elimination – either upon entry-into-force or phased out – of all fish and seafood tariffs. This includes tariffs ranging from 3.5% to 15%, including fresh, chilled or frozen salmon (including fillets), snow crabs, herring roe, and live, fresh or chilled sea urchin and roe.

Forest products and value-added wood products

Japan is one of Canada's most successful markets for forest products and value-added wood products. CPTPP gains in this sector include the elimination of all Japanese tariffs on forest products and value-added wood products. This provides significant opportunities for Canadian wood exporters in the Japanese market. Products include lumber, plywood and veneer panels, oriented strand board, worked coniferous and non-coniferous wood, and sheets for veneering.

Other benefits

The CPTPP levels the playing field for Canadian exporters relative to countries like Australia that already enjoy preferential access to the Japanese market, and also gives Canada an advantage compared to lead U.S. competitors. On investment, the CPTPP allows Canadian companies to invest with greater confidence in Japan, offering them protections from unfair and discriminatory treatment, as well as greater predictability and transparency.

Through the CPTPP, service providers also benefit from improved access commitments in key sectors such as:

- professional services (e.g. urban planning, landscape & architectural services)
- research and development services
- environmental services
- transportation services and
- other business services (e.g. services related to manufacturing and technical testing and analysis services).

New commitments on the temporary entry of business people now make it easier for certain categories of Canadian business people to temporarily work in Japan, including high-skilled Canadian professionals and technicians as well as their spouses. The CPTPP also provides robust and enforceable provisions on labour and environment.

To obtain detailed information, please visit:
www.international.gc.ca

INCENTIVES FROM CENTRAL GOVERNMENT

To facilitate investment in Japan, the government offers appealing incentives, as well as operating single contact points in relevant ministries and agencies for inquiries and support when doing business in Japan.

Tax incentives for strengthening local business facilities

The government offers tax incentives for companies that relocate their headquarters from the 23 wards in Tokyo to other regions, or enhance and expand the function of their headquarters in those regions. Non-target regions for support are central Chubu region (Nagoya area) and central Kinki region (Osaka area).

- Employment promotion taxation (tax credit for new employees)
- Capital investment tax cut
- Compensation for unequal taxation of local taxes

COMPETENT AUTHORITIES

Employment Policy Division, Employment Security Bureau,
Ministry of Health, Labour and Welfare

*Japanese language only

Incentives for Highly Skilled Foreign Professionals:

Incentive measures for foreign nationals concerning startups

Points-based preferential immigration treatment for highly skilled foreign professionals

Under the points-based system, foreign professionals who earn 70 points or more will be recognized as “highly skilled foreign professionals” and will be given preferential immigration treatment and will be eligible for a Japanese Green Card for Highly Skilled Foreign Professionals.

COMPETENT AUTHORITIES

Foreign Residents Information Center, Immigration Bureau,
Ministry of Justice

Resident status (so-called “start-up visa”) based on

“Programs to Promote the Acceptance of Foreign Entrepreneurs” for National Strategic Special Zones

Foreign nationals attempting to start a business in Japan.

Requirement: securing of an office and investment of ¥5 million or more or employment of two or more full-time employees.

COMPETENT AUTHORITIES

Headquarters for the Regional Revitalization Cabinet Office,
Governments of Japan

Tax incentives for Research and Development (R&D Tax Credit System)
Tax incentives through which a certain rate of R&D expenses conducted by private companies as part of their business activities can be deducted from their corporate tax (national tax) of the relevant fiscal year.

Promotion of Open Innovation

Tax credit for the total amount of expenses for joint or contract research with universities, national research institutes, etc.

COMPETENT AUTHORITIES

Innovation and Industry-University Collaboration Division, Industrial Science and Technology Policy and Environment Bureau, Ministry of Economy, Trade and Industry

Incentives based on the Act on Special Measures for Productivity Improvement

Regulatory Sandbox in Japan

The Regulatory Sandbox framework in Japan enables speedy verification and data collection that can lead to regulatory reforms through establishment of an environment where new technologies and business models can be demonstrated, under certain conditions, such as limited participants or duration, without adhering to existing regulations.

COMPETENT AUTHORITIES

GoJ's Regulatory Sandbox Team (in liaison with the Cabinet Office), within the Japan Economic Revitalization Bureau of the Cabinet Secretariat

Connected Industries Tax system (IoT Tax system)

Tax measures supporting introduction of systems, sensors, robots necessary to boost productivity, through collaboration and utilization of data, for which certain cybersecurity measures are taken
Targets: Software, apparatuses, equipment, machinery and devices

COMPETENT AUTHORITIES

IT Innovation Division, Commerce and Information Policy Bureau, Ministry of Economy, Trade and Industry

Tax incentive for wage and productivity improvement

Tax incentives through which a part of an increase in pay and allowance by large companies raised wages can be deducted from their corporate tax (national tax) of the relevant fiscal year. Applies to the fiscal years which start from April 1, 2018 to March 31, 2021.

COMPETENT AUTHORITIES

Human Resources Policy Office, Economic and Industrial Policy Bureau, Ministry of Economy, Trade and Industry

Incentives based on Industrial Competitiveness Enhancement Act System to Remove the Gray Zone Areas

For new business fields, it is often unclear for enterprises whether the existing laws and regulations will be applied to their new businesses. On such occasions, the competent ministry for the business confirms whether the matter is regulated or not. The period from application to response is within one month in general.

System of Special Arrangements for Corporate Field Tests

Preferential regulatory flexibility to individual enterprises will be allowed as a special provision. What is different from conventional deregulation is that special arrangements can be applied to individual companies if safety and other requirements are satisfied.

COMPETENT AUTHORITIES

Startup and New Business Promotion Office, Industry Creation Policy Division, Economic and Industrial Policy Bureau, Ministry of Economy, Trade and Industry

Tax Deduction System based on the Regional Future Investment Promotion Act (Regional Future Investment Promotion Taxation)

A tax deduction system for projects which create high added value, by utilizing advantages of local regions.

Special taxation measure regarding capital investment

Foreign-affiliated companies can take advantage of special taxation measures for "projects which can stimulate the local economy" and are in accordance with the basic plans prepared by the relevant prefecture and municipality. Companies need to obtain approval by the prefecture for the project and receive confirmation from the competent minister pursuant to the provision.

COMPETENT AUTHORITIES

Business Environment Promotion Division, Regional Economic and Industrial Policy Group, Ministry of Economy, Trade, and Industry

Tax exemption or unequal taxation of local taxes

Confirmed companies (requiring confirmation pursuant to article 24) may be able to receive exemptions or reductions on property acquisition taxes and property taxes by local authorities.

COMPETENT AUTHORITIES

Local authorities

To obtain detailed information, please visit
www.jetro.go.jp/en/invest/incentive_programs.html

Preferential tax treatment for special zone

National Strategic Special Zone

Special regulatory measures, tax treatment (for corporate income tax), and financial/monetary support are available for companies with business plans in National Strategic Special Zones.

Comprehensive Special Zones

Special regulatory measures, tax credit (for corporate income tax), and fiscal/financial support are available for companies with business plans in designated zones. CSZs have two types: those for international competitiveness and those for local revitalization. CSZs aim at providing tailored, integrated support for comprehensive and strategic challenges in selected regions.

COMPETENT AUTHORITIES

Headquarters for the Regional Revitalization Cabinet Office, Governments of Japan

Special Zones for Reconstruction

Special measures such as deregulation, tax incentives, etc. are available for companies with business plans in disaster afflicted areas.

COMPETENT AUTHORITIES

Reconstruction Agency

Incentives relating to disaster recovery

Various subsidies for new business establishment and employment creation are available in areas recovering from tsunami and nuclear disaster.

COMPETENT AUTHORITIES

Regional Industrial Infrastructure Division, Regional Economic and Industrial Policy Group, METI

The Chiba Investment Support Center (CISC) is a one-stop source of information, and our special feature is the advisors from the private sector who give foreign companies that are considering moving to Chiba Prefecture quick and friendly advice about a variety of business-related matters, including offices, visas, registration, and recruitment.

System of Grants

In addition to grants for foreign companies to rent offices and plants, etc., the prefecture also offers measures such as subsidies and tax reductions.

Incubation Facilities

The Foreign Affiliates Startup Center (FASuC) provides rental office space for foreign companies (20 units, 20 to 70 square meters each) in Makuhari New City, through an alliance between the prefectural government and building operators, suitable for startups with a small number of employees. Companies rent these offices at a discount, thanks to a subsidy from the prefectural government.

Other incubation facilities set up in Chiba Prefecture include Tokatsu Techno Plaza and Tohdai Kashiwa Venture Plaza in the Tokatsu region, Creation Core Kazusa in the Kazusa region, and Chibadai Inohana Innovation Plaza in the Chiba area.

Subsidies and Tax Reduction Measures

Support measures for small and medium-sized businesses in Tokyo include low interest financing, subsidies, and tax preferences among other services. Foreign affiliated companies may take advantage of these benefits if they establish a Japanese corporation.

Subsidies will not exceed one-half of the actual expenses listed below and will be limited to a maximum of ¥5 million.

- Fees related to obtaining "status of residence"
- Fees for registering the establishment of the headquarters/R&D center and other relevant filing procedures
- Employee recruitment costs

Tokyo's Special Zone for Asian Headquarters

Foreign companies establishing their Asian headquarters or R&D centres within the Tokyo's Special Zone for Asian Headquarters are eligible to receive subsidies and tax reduction.

* Companies must fulfill certain conditions to receive these benefits.

The Tax Reduction Fund to Countermeasure Deindustrialization was introduced in 2012, facilitating support of firms that are seeking to establish manufacturing facilities, and carrying out research, development and proving tests.

Subsidy Program to Promote Investments in the Cutting-Edge Sectors of the 21st Century was established, in which the limit of the subsidy is increased to ¥10 billion, making it one of the largest subsidies in Japan.

Aichi Prefecture provides investment support to companies that have contributed to the local economy and employment for many years. The prefecture also supports small and medium sized companies in core supply chain fields.

Aichi-Nagoya International Business Access Center (I-BAC) provides a free and speedy “one-stop service” relating to markets, clients and business partner candidates, support measures, offices and factories, transportation and other infrastructure, human resources, housing, education and medical care, and licensing and other related procedures.

The Greater Nagoya Initiative (GNI) provides subsidies to foreign companies locating in Aichi for expenses such as registration-related expenses, real-estate company fees, and staffing company fees (specific conditions must be met).

Nagoya City grants can be used for office rental costs (specific conditions must be met).

INCENTIVES

The most beneficial tax treatment measures in Japan can be accessed in the various special zones such as the International Logistics Hub Industry Development Zone, the Designated Information and Communications Industry Promotion Zone, and the Financial Business Promotion Zone.

Financing Program

Low-interest financing can be accessed from the Okinawa Development Finance Corporation.

Subsidies and Tax Breaks

- Companies that locate in the International Logistics Hub Industry Development Zone receive a number of tax advantages, such as a 35 percent deduction in taxable income for corporation tax purposes, and partial exemptions from local government taxes such as real estate acquisition tax and fixed asset tax.
- Companies are able to choose between alternative systems for the application of tariffs.
- Companies hiring employees under 35 years of age receive subsidies equal to one third of the employees' wages. (Other conditions also apply)

JAPAN EXTERNAL TRADE ORGANIZATION

The Japan External Trade Organization (JETRO) is a government-related organization promoting mutual trade and investment between Japan and the rest of the world. As one of our activities, we offer foreign investors with abundant information on all aspects of doing business in Japan, by providing expert consultation and offering free temporary office space in major business areas across the country. Talk to JETRO first and see more of what we offer to help set up your business in Japan.

JETRO has a network of 74 overseas offices in 54 countries, and over 47 offices within Japan consisting of JETRO Headquarters Tokyo, JETRO Osaka, Institute of Developing Economies and regional offices. (as of December 2016).

INVEST JAPAN BUSINESS SUPPORT CENTER (IBSC)

The JETRO IBSC (Invest Japan Business Support Center) is a business facility which provides you with the most convenient and cost-effective way to enter or expand your business in Japan.

CONSULTATION

Free individual consultation for your company

IBSC staff and advisors can provide information about such matters as industrial structures and market shares, Japanese business practices, regulations and relevant legal matters by industry, as well as offering advice based on the needs of your company.

Provide information on the regulations and incentives from national and local governments

National and local authorities offer a number of incentives to encourage investment. In addition to information on these incentives, the IBSC staff can also help you to efficiently gather information on laws, standards, regulations and authorization procedures and can arrange meetings with representatives from national and local authorities. The IBSC staff can assist you with submitting certain requests for deregulation to the relevant government bodies.

Estimate the cost to set up a Japan office

IBSC can provide a customized estimate based on a number of factors showing how much it would cost you to set up an office in Japan.

Help with procedural requirements for establishing a business

Our in-house team of experts can provide you with information on company registration, visa applications, tax procedures, and labor procedures. We can also introduce you to outside professionals who can create and submit the procedural documents on your behalf.

Find qualified staff

Our staff can search for specific candidates, including representatives in Japan, salespeople, accountants, and engineers, through recruitment and job-placement companies and present the candidates to you. We also cooperate with recruitment companies in arranging interviews with promising candidates.

Find a location for your office

IBSC can help you find possible locations for your permanent office according to your needs using local real estate companies. Since you will need to have a set address for the majority of the procedures required for setting up your office—including establishment registration and public notification, certificate of eligibility application procedures, opening a bank account, and hiring employees—it is necessary to begin finding an office early in the process. IBSC can help you find an office quickly using our nationwide network with real estate companies.

FACILITIES

Temporary office space offered free of charge

IBSC temporary offices are located near major government offices and have convenient access to important business centers across Japan. Such proximity enables you to complete applications, registrations, business negotiations and other preparations to smoothly establish your business.

Multipurpose hall and conference rooms

Multipurpose hall and conference rooms are available to hold seminars, meetings, and other business activities so as to avoid having to reserve outside facilities.

Gather a wide range of information needed for your business

The JETRO Business Library is an academic library devoted to international business. Our libraries in Tokyo and Osaka hold collections of over 230,000 books and 100,000 books, respectively. Our resources include an excellent selection of English-language documents and reference materials on Japan, Asia and other countries, and visitors have free access to all items in the library.

TOKYO ONE-STOP BUSINESS ESTABLISHMENT CENTER

The Japanese Government and the Tokyo Metropolitan Government together launched the Tokyo One-Stop Business Establishment Center on the 7th floor of JETRO Headquarters in Tokyo, which commenced operation on April 1, 2015.

This is the first center in Japan that has integrated the procedures for establishing business by overseas-affiliated or venture companies in one location.

Through face-to-face consultation, well-versed staff members and experts in this field assist with a wide range of administrative procedures required when forming a legal entity and starting operations in Tokyo including certification of articles of incorporation, corporate registration, taxes, pension, social insurance and immigration control. At the request of these companies, the center will also provide interpretation and translation services in multiple languages.

REFORM 2020

The Japanese Government is making an all-out effort to leverage the 2020 Tokyo Olympic and Paralympic Games by promoting 6 core projects to be accomplished by the year 2020. These projects are intended to accelerate innovation, raise attention from around the world and lead to strengthening economic growth.

- 1. Use of next-generation transportation systems and automatic driving technology.** The Government will make the utmost use of the research and development results of its public-private collaboration promotion body, and the Strategic Innovation Promotion Program (SIP) under the Council for Science, Technology and Innovation to realize the next generation transportation systems (ART-Advanced Rapid Transit). Moreover, by utilizing sophisticated automatic driving technology, the Government will strive to realize the securing of transportations for those with restraint on movement such as the elderly, and convoy traveling of trucks.
- 2. Solutions to energy/environmental problems through use of distributed energy resources.** The Government will strive to establish the utilization of CO2-free hydrogen derived from renewable energy sources and innovative energy management systems.
- 3. Realization of a universal future society through leading-edge robotic technology.** Addressing social issues such as labour shortage due to a decrease in population, the Government will take advantage of robotic technologies in every space of life. For example, these technologies can enable the elderly and the handicapped to enjoy wide-ranging services necessary for realizing a stress-free life.

4. International implementation of high-quality Japanese medical services and technology (inbound use of medical care).

The Government will list medical institutions which actively accept patients from foreign countries who visit for medical services such as health check ups, medical treatment and follow-up examinations after medical treatment.

5. Showcasing Japan as a tourism country. The Japanese Government aims to attract 20 million foreign visitors in 2020, and 30 million in 2030, by taking advantage of attractive tourism areas and easy access points such as Narita and Haneda International Airports. The Government will select a private-public run tourism management organization, with policy input from ministries and agencies, to facilitate the development of tourism resources. The goal is a stress-free environment for visitors providing multilingual services and to become a tourism-oriented nation by 2020.

6. Policies to attract more foreign direct investment in Japan.

The Japanese Government is focusing on foreign direct investment leading up to the year 2020, when international attention is heightened due to the hosting of the 2020 Tokyo Olympic and Paralympic Games and efforts will be most effective. The objective is to develop an attractive business environment for domestic and foreign companies and to strategically engage, identify and attract investment projects, by actively disseminating improvements in the business environment. The promotion of policy measures in this growth strategy, under the cooperation with local governments, will accelerate reforms in regulations and systems. In order to expand foreign direct investments in Japan, the Government is making the utmost use of the 2020 Tokyo Olympic and Paralympic Games by hosting a number of high-profile international events such as:

2020: Regional Business Conference

2020: Japan Business Conference (Tokyo)

2020: Global Venture Summit (Tokyo)

2020: Tokyo Olympic and Paralympic Games

2025: World Expo Osaka

CCCJ COMMITTEE

INVESTING IN INNOVATION

Mission Statement

The authority on global business in Japan our mission is to connect businesses, investors and most important, people. Actively engaging our membership base we give them the inside edge; Leveraging the CCCJ's expansive network and keeping a finger on the pulse of geopolitical trends we seek/create opportunities to drive growth and innovation.

日本におけるグローバルビジネスの権威として CCCJは企業、投資家、そして人と人とのつながりを橋渡しします。メンバーの積極的な関与を促し、内部の最先端の情報を提供します。CCCJメンバーの広範なネットワークも活かし、地政学的動向の把握に努めながら、成長とイノベーションの促進につながる機会を生み出していきます。

www.cccj.or.jp

CANADIAN CHAMBER OF COMMERCE IN JAPAN

Representing some 35 business sectors, the CCCJ is a member-driven, member-focused organization and is the longest serving Canadian Chamber in Asia. With over 400 member representatives, the CCCJ represents a broad cross-section of businesspersons and entrepreneurs from Canada, Japan and other countries. Our members come from a variety of industries and are of different nationalities, but they all have in common a keen interest in the Canada-Japan business, trade, and developing sustainable partnerships.

NETWORKING AND BUSINESS OPPORTUNITIES

The CCCJ is a participation orientated organization where our members actively support each other's activities and interests. With regular networking events, we strive to give members many opportunities to make new connections, gather industry insights, and share experiences with a range of sectors. To offer the most extended network, the CCCJ has close relationships with other chambers and is the proud organizer of at least four joint chamber events every year.

KNOWLEDGE & INSIGHTS

We host informational seminars and guest speaker events for members to gain professional knowledge and practical information to improve their business and careers. To further enhance our reach, we also deliver knowledge and insights through our wide range of communication channels, including: weekly Canada-Japan News (CJN) newsletter, a quarterly publication (The Canadian), website, social media, and an annual interactive Canada-Japan business guide.

"Canada Wood has been a long-standing member of the CCCJ thanks to the value that it brings to our organization. By participating in the CCCJ our management team enhances its effectiveness through exposure to fresh ideas and an extensive network of talent and expertise. This valuable network helps us stay on top of the evolving dynamics of the Japanese market. The Chamber also provides us with a voice to effectively articulate issues and priorities that impact our business with senior government and business leaders. The CCCJ plays a pivotal role in fostering Canada-Japan business relations and we are proud to be a member."

Shawn Lawlor
Director, Japan Operations,
Canada Wood Japan

"Air Canada has been a corporate sustaining member of CCCJ for more than 40 years. CCCJ offers an invaluable service through various events and publications, by keeping us abreast of business activities between Japan and Canada. I also believe CCCJ is strengthening the business partnership and friendship between Japan and Canada benefitting both countries as we learn so much from each other. CCCJ is the best tool for assuring our partnership grows."

Kiyo Weiss
General Manager,
Air Canada Japan

ADVOCACY

Interacting with Canadian and Japanese policymakers, the CCCJ advocates for policies that enhance business and trade environment for its members.

The CCCJ offers a range of membership categories to suit the needs of all individuals and companies. Please visit www.cccj.or.jp to join us.

"The Canadian Chamber of Commerce in Japan plays a valuable role in Japan-Canada relations in terms of helping to identify and express key issues for trade, innovation and investment matters between the two countries. It also provides excellent networking opportunities for executives who want to build connections with key stakeholders in Canadian government and business."

Tatsuo Okazaki
Department General Manager,
Overseas Department No.1,
Overseas External Affairs Division,
Toyota Motor Corporation

DO's & DON'TS

First time in Japan?

Japanese culture is famous for its politeness. Here is a brief list of Japanese Do's and Don'ts

GETTING AROUND

- DON'T TOUCH taxi doors, drivers open them for you
- DON'T tip – it can be insulting

OMIYAGE

- DO give gifts to co-workers, friends and relatives
- DO bring a local snack back to friends or the office when you return from a trip
- DON'T be offended if the gift is not opened in front of you

PRIVATE VISITS

- DO remove shoes when entering a home and leave shoes pointing towards the door

ONSEN VISIT

Wash yourself with soap and water at the shower area. DON'T get into the bath until you rinse all the soap off your body

The bathtub is for soaking only

- ✗  • DON'T use swim wear
- ✗  • DON'T use wash towels

DON'T worry if you see people wearing surgical masks – they are just trying not to pass on their cold to others

ARRIVE ON TIME

- DO always arrive on time for business and private appointments

- DO give and accept business cards with both hands and read them over thoroughly

GREETINGS

- DO bow when people bow to you DON'T come up until they do
- DO bend from the waist and keep the back relatively straight
- DO bow with your hands at your sides for men or clasped in the lap for women
- DO use apologies and express gratitude
- DO be calm and cordial maintaining harmony

EATING

- DO try and use chopsticks
- DO be adventurous with trying new kinds of food

- DO fill the glasses of people around you

- DON'T stab food with your chopsticks
- DON'T pass food from chopsticks to chopsticks

Saskatchewan, Canada is the place to grow your business.

インセンティブプログラムとサービス

インセンティブ

イヌイット・ヌナブトの事業パートナーとなる投資家は、関大なファイナンス、融資、人件費補助を受けられます。消費税、雇用主にかかる給与税はなく、さまざまな政府のインセンティブを受け、投資の成果、経済開発を一層効果的に増進することができます。

石油ガス

既知の石油とガス資源の埋蔵量はニューファンドランドのものに匹敵し、資源の追加発見の可能性はカナダの将来資源の20%までになると推定されています。

鉱物

2006年に最初のダイヤモンド鉱山を開設し、2007年までに鉱業開発支出は2億3,300万ドルで、1999年の水準からほぼ10倍に増加しました。

観光

経験豊富なホテル経営者やアドベンチャー・ツアーオペレーターは、ユニークなイヌイット文化と年間18,000人の観光客を惹きつけるヌナブトの傑出した自然の美しさを活用することができます。

急成長する人口

ヌナブトはカナダで最も若い人口を抱えていて、ヌナブト研究所を含むヌナブト・アークティック・カレッジの本拠地です。

戦略的投資を 北部経済開発に

北部経済開発(SINED)への戦略的投資は、カナダの3つの地域における主要経済セクターを強化する経済開発プログラムです。SINEDは、北部の経済成長と多様化を促進し、イノベーションと能力開発をサポートし、先住民と非先住民のための雇用を創出するプロジェクトを支援します。

インセンティブプログラムとサービス

石油ガス

すでに16億バレルの原油、12.2兆立方フィートの天然ガスが発見されています。石油資源の埋蔵量は北米圏でも最大規模です。

ダイヤモンド

世界 第3位 のラフカット産出量を誇ります。

高い雇用率

ノースウェストはカナダで一番高い雇用率を誇り、世界中からの投資先としても魅力あるところです。

インセンティブ

連邦および準州のインセンティブプログラムがビジネスと投資に提供されています。税率が低く、カナダでもGDPが最も著しく成長している地域でもあります。

観光

年間60,000人が訪問し、1億1,360万ドル以上を生み出しています。

教育支出

教育費は学生一人当たり、全国平均の3倍です。

経済開発オフィサー

産業観光投資省は、ノースウェストにおける事業開発を促進するための地域経済開発オフィサー(EDOs)のネットワークを支援しています。

プログラムとサービスの詳細

www.investnwt.com

www.cannor.gc.ca

強い産業分野

- 鉱業と掘削
- 石油ガス観光
- 革新と技術
- 映像音響制作

ユーコン政府は、鉱業界の探鉱に金銭的インセンティブを与えている他の管轄区域よりも、一世帯当たりにも多くの費用を費やしています。また、総予算の一部を探鉱インセンティブとして、豊かな鉱物資源を世界市場へ積極的に売り出しています。そして、この支援は、推定17兆立方フィートの天然ガスと7億バレルの石油を誇るユーコンの未開発石油・ガス田にまで及んでいます。

Business and Industry Development
Department of Economic Development
Government of Yukon

Phone: +1 (867) 456 3803

<https://yukon.ca/en/departments-of-economic-development>

インセンティブ

- 多数の税控除とリベートが、ユーコンの新興セクターと地方中小企業への投資を促進します。
- 一般向けおよび各業種に特化した多くのインセンティブファンドを提供しています。
- 企業に有利な課税制度で、州の販売税はありません。
- 事業のための明確で公正な法規制が整っています。

低い税率

カナダでもっとも低い個人所得税率
法人所得税率と、なっています。

天然資源

世界有数の鉱物埋蔵量がありますが、いまだに大部分が探索されておらず、ユーコンの石油・ガス・林業には今後も大きな成長の機会が見込まれています。

若い労働力

技能の高い労働力で学位をもっている人の割合が一番高いところです。寒冷気象技術の研究とイノベーションをリードしています。

市場アクセス

主要な流通経路に近接: アルバータ州は南東に位置し、ユーコンと北米西部の主要な流通センターを結んでいます。また、南は米国、西側にはブリティッシュ・コロンビア州とアラスカ州を結び、ユーコンとアジアへの主要航路を結んでいます。

レクリエーションインフラ

自然の荒野と現代のスポーツ・レクリエーション施設を融合して開発されたレクリエーションインフラがあります。

イノベーションと研究開発 (R&D)

カナダに拠点を置いて研究開発事業を行う企業は、企業規模や産業分野を問わず科学研究実験開発 (SR&ED) プログラムによる優遇税制の対象になります。カナダ国内で行われ、一定の条件を満たす研究開発の費用について、還付や税額控除を受けられます。

オンタリオ州はこの他にもR&Dに対する優遇税制を実施し、世界でも有数の手厚い支援を行っています。

実習・訓練・教育

州の実習訓練税額控除制度 (Apprentice-ship Training Tax Credit) により、企業は新規の実習生の給与や賃金に対して35-45%の税額控除を受けられます。

州内の大学生向けインターンシップ・プログラムに登録した学生を実習生として受け入れた雇用者は、税額控除 (Co-operative Education Tax Credit) を受けられます。控除の上限は、受入れ1名につき最大3,000カナダドルです。

地域振興助成金

経済発展のために多くの地域振興助成金が設定されています。これらの助成金は、雇用創出やイノベーション、事業協力、産業集積を促進し、民間投資を拡大することを目的としています。

特定産業助成金

先進製造業助成金 (Advanced Manufacturing Fund) は、大規模で革新的な製造事業を支援し、最先端技術の導入を進め、産業集積やグローバル・サプライチェーンを構築し、民間企業と大学・研究機関との協力を強化することにより、州内の先進製造業の持続的な成長と生産性の拡大を促すことを目的としています。

オンタリオ州は、航空宇宙、自動車、環境、食品、情報通信・デジタルメディア、ライフサイエンス、鉱業など、幅広い産業を支援する様々な助成金を設けています。

インセンティブプログラムとサービス

支援する政府

ブリティッシュ・コロンビア州は、安定した財政管理とビジネスに配慮した経済に誇りをもっています。この強い基盤をもとにさらに活動を活発にしています。

規制の合理化

ブリティッシュ・コロンビア州はペーパーワークを減らし、規制を合理化することで、よりビジネスに集中していただきたいと考えています。

低い税

法人税率がG7諸国の中で最も低く、社員は最高で122,000ドルの収入を得る個人における最も低い所得税のメリットを受けられます。ブリティッシュ・コロンビア州でビジネス展開をしませんか？

労働力

知識豊かでスキルと柔軟性を持つ240万人以上の労働力は、ブリティッシュ・コロンビア州の最大の資源の1つです。

第一級の公立教育

ブリティッシュ・コロンビア州の大学は常にカナダ国内のトップクラスに入り、高度に統合された教育システムは、進歩的で柔軟性がある教育のグローバルモデルとなっています。

低いビジネスコスト

ブリティッシュ・コロンビア州でのビジネスにおけるコストはその他の北米都市より大幅に低いと言えます。労働力や電力、設備コストは一般的に低く、法人税についても同様です。

主要輸送拠点

ブリティッシュ・コロンビア州は北米とアジア太平洋を結ぶ輸送の重要なハブで、ブリティッシュ・コロンビア州の港からのルートが太平洋横断の最短ルートになります。

支援を提供しています。

環太平洋パートナーシップに関する包括的及び先進的な協定 (CPTPP)

在加日系企業180社を対象に、カナダにおける経営実態について、JETROが2018年12月にアンケートを実施したところ、回答者の74.8%が営業利益を期待し、半数近くが日本からの輸入にCPTPPの利用を検討していました。

まとめ

企業業績

7年連続で、回答者の70パーセント以上(74.8%)が営業利益を期待していると答え、在米日系企業活動実態調査同様、アンケート開始以来最長となりました。景況感の指標となる2018年の業況判断指数(DI)は、2017年に比べ8.2減の16.8ポイントでしたが、2019年の業績予想は27.3ポイントに上昇し、より多くの企業が業績の向上を見込んでいます。

今後の事業の方向性

回答者の33.8%が過去12ヶ月において現地社員数を増員し、半数近く(46.2%)が1~2年以内に拡大を予定していると回答しました。アンケート結果を通じて、日本人駐在員の人数がほぼ不変であることが分かりました。

サプライチェーン(原材料と販売仕向地)

企業の60%以上がNAFTA圏内から原材料を入手し、NAFTA圏内の顧客を対象にした売上は全体の80%以上でした。日本から調達された原材料は全体の20%弱で、日本顧客への売上は10%強でした。日本からの輸入に関しては、企業の約半数(45.0%)が「環太平洋パートナーシップに関する包括的及び先進的な協定」(CPTPP)の利用を検討していました。

経営上の課題

経営上の課題(コストの増加)としては、59.2%の企業が「人材確保」が重要課題であると回答しました。「報酬(給与と賞与)」は前年度の63.6%に比べ、8.7ポイント減の54.9%でしたが、今年度も同様に重要課題として挙げられました。その上、企業の20%が関連規定の問題に直面し、その内56.7%が「環境規制」、30%が「労務管理」を主な要因として挙げました。

変化する事業環境への対策

前年度のアンケート結果同様、回答者はトリュドー政権の政策に対し、「貿易」(72.8%)、「税制」(65.4%)、「外交」(58.1%)の3項目に焦点を当てていました。貿易に関しては、「米国・メキシコ・カナダ協定(USMCA)」(64.9%)、「追加関税」(55.7%)、「CPTPP」(38.1%)への関心も挙げられました。

今後市場拡大が期待されるセクター

今後2~3年間、成長が期待されるセクターについて企業に調査したところ、トップは情報通信技術(ICT)、次いで環境とヘルスケアが挙げられました。前回実施された2016年のアンケートと比べ、ICTは30ポイントの激増、ロボット工学・メカトロニクスは4.6ポイント増、食品・農産物は4.3ポイント増となりました。

カナディアン・テクノロジー・アクセラレーター (CTA)

カナディアン・テクノロジー・アクセラレーター・ジャパンは5～8ヶ月間に及び、カナダの有望なハイテク企業が迅速に日本の市場に参入できるようサポートし、事業をスケールアップするプログラムです。戦略的パートナーシップや事業展開を構築し、カナダ企業を下記セクターにおいて日本のトップクラスの企業や顧客、パートナー、投資家とつなげます。

人工知能 (AI)

Internet of Things (IoT)

自動化・モビリティ技術

デジタルヘルス企業

当プログラムは日本市場の開拓にコミットし、必要なリソースと能力を備える成長後期のハイテク企業を対象としています。

日本が選ばれる理由

世界第三位の経済大国である日本は、カナダにとって重要なパートナー国家です。主要なグローバル投資国として、カナダへの海外直接投資額もアジア圏で最大です。日本の多国籍企業も、幅広いセクターにおいて増加傾向にあり、それらの企業がオープンイノベーションを積極的に採用するにつれ、外国企業のテクノロジーやアイデア、パートナーシップへの意欲も高まっています。

プログラムとサービスの詳細
www.international.gc.ca

日本の市場:

- 6兆ドル以上
- Fortunes 500の内50社が日本企業
- 2018年の企業利益は8,000億ドル以上
- 大規模かつ富裕な消費者ベース
- 技術開発者にとって世界トップクラスの高収益市場
- アジア圏やグローバルバリューチェーンの重要なハブ
- 大きな資本源
- 世界有数の製造ベース
- 5G導入の市場リーダー
- コーポレート・ベンチャー・キャピタルによるVC環境の拡大

カナダ商工会議所が提供するサービス

下記の項目を含め、事業開拓や資金集めなど、各社のニーズにカスタマイズされたプログラム内容を提供します。

- 日本市場の専門家や対象セクターのアドバイザーによるバーチャル・メンターシップ・プログラム
- 最適な潜在顧客やパートナー、投資家とのビジネスマッチング
- 市場視察期間中のコワーキングスペースの提供
- 対象マーケットのイベントやネットワーキング、ショーケース、講演などへの排他的アクセス
- マーケット・インテリジェンスや日本国内におけるビジネス機会やトレンドに関するレポートへのアクセス
- 日本のビジネスカルチャーや慣行の知見、日本市場向けにセールストークをカスタマイズ
- 専任の通商担当

該当条件

- 輸出準備が万全で、革新的かつユニークな商品またはテクノロジー
- 既存の市場けん引力、または100万ドル以上の払込資本金
- 強力な経営陣。プログラム専任の上級管理職が1人以上
(バーチャル・メンターシップ・プログラムおよび市場視察に参加可能な方)
- 日本市場参入に関する徹底的な戦略
- 市場視察にかかるコスト(交通費、宿泊費、食事代)を負担する資金力

プログラム期間

日本CTAプログラムは順次実施しています。承認後、5～8ヶ月間の期間中、プログラム全項目への参加が必須となります。期間中のオリエンテーションや市場視察の日程はご希望に応じます。

海洋 スーパークラスター

主要地域:
大西洋州
テクノロジーの焦点:
デジタルセンサー・監視、自律型海上乗物、エネルギー生産、オートメーション、海洋バイオテクノロジー、海洋工学技術
10年間に及ぶGDPインパクト:
140億ドル以上
10年間に及ぶ雇用創出:
3,000件以上

海洋スーパークラスターは、海洋再生可能エネルギーや水産業、水産養殖、石油やガス、防衛、造船業、輸送など、カナダの海洋産業を強化するために最先端技術を採用します。21世紀のエネルギー供給など、グローバル課題への解決策を提供し、雇用を創出することにより、カナダの今後の繁栄を保証するスーパークラスターです。

活動例

多様かつ熟練した 人材プール

最良の人材を誘致する活動に取り組んでいます。さらに高等教育機関と協力し、若者の能力を高め、科学、技術、工学、数学の各分野において、女性やマイノリティが参入しやすい環境づくりを実践しています。

スケールアップをもたらす パートナーシップ

スタートアップ企業や中小企業を必要とするリソース、投資家、テクノロジーの初期採用者をつなげ、成長を促します。

プログラムとサービスの詳細

技術的リーダーシップ

共同技術プロジェクトを通じて、自立型海洋乗物やセンサーネットワークなどの海洋事業のデジタル化に取り組んでいます。

世界規模のメリット

海洋イノベーションを率いる国々との協力を促すために、グローバル海洋テクノロジー同盟の発足に取り組んでいます。

イノベーションへのアクセス

プロトタイプづくりや試験用設備へのアクセスを提供しています。

SCALE.AI – AIサプライチェーン

主要地域:
ケベック州、ケベック・ウィンザー回廊地帯
テクノロジーの焦点:
人工知能とサプライチェーン技術術
10年間に及ぶGDPインパクト:
165億ドル以上
10年間に及ぶ雇用創出:
16,000件以上

ケベック州を拠点とするAIサプライチェーン(SCALE.AI)は小売、製造、輸送、インフラおよび通信技術の各セクターを結集し、人工知能とロボット工学を通じて、インテリジェントなサプライチェーンを構築します。このスーパークラスターは、カナダの中小企業のスケールアップを支え、カナダが世界屈指の輸出国となることを確証します。

活動例

多様かつ熟練した 人材プール

AIセクターにおいて人材の多様性を一般化し、AIとサプライチェーンを活用する能力を高め、需要の高いスキルを対象とした教育プログラムの増加に取り組んでいます。

スケールアップをもたらす パートナーシップ

スタートアップ企業や中小企業から新たなソリューションを導入できるよう、AIセクターの担い手の紹介制度を立ち上げています。

プログラムとサービスの詳細
www.ic.gc.ca

技術的リーダーシップ

次世代AIサプライチェーンのプラットフォームの開発およびロボット工学をはじめとする最先端技術に取り組んでいます。

世界規模のメリット

国際基準のフォーラムとつながり、カナダの知的財産やプラットフォーム、アプローチなどを新たな基準に導入する活動を実施しています。

イノベーションへのアクセス

安全なデータ交換が実現できるように取り組み、テクノロジーやイノベーションの互換性を最大限に高めます。

デジタル技術 スーパークラスター

主要地域:
ブリティッシュ・コロンビア州

テクノロジーの焦点:
VR(仮想現実)・MR(複合現実)・
AR(拡張現実)、データ収集・分析、
量子コンピューティング

10年間に及ぶGDPインパクト:
50億ドル以上

10年間に及ぶ雇用創出:
13,500件以上

デジタル技術スーパークラスターは、拡大・改良されたデータセット、ARやクラウド・コンピューティング、機械学習などの最先端応用技術を活用し、自然資源・プレジジョンヘルス・製造の各セクターにおいてサービスの提供を向上します。デジタル技術を導入することにより、時間と経費を削減し、カナダ国民の健康と生活の向上につながります。

活動例

多様かつ熟練した 人材プール

女性やマイノリティをスーパークラスターに誘致し、保持する取り組みです。従来の産業セクターを対象としたデジタル技術トレーニングも提供します。

スケールアップをもたらす パートナーシップ

スタートアップ企業や中小企業を必要なりソース、投資家、テクノロジーの初期採用者となつなげ、成長を促します。

イノベーションへのアクセス

迅速に実験や試験を実施できるよう、仮想環境を開発しています。

技術的リーダーシップ

共同研究や開発プロジェクトを通じて、統合されたプラットフォームの構築、顧客へのデジタルソリューションの提供、そして先住民コミュニティを対象とした遠隔ケアへのアクセスなどのサービス向上に取り組んでいます。

世界規模のメリット

グローバル人材や革新的な企業の誘致を目的に、カナダのブランド力の強化に取り組んでいます。

有利な事業環境

フォーブスおよびブルームバーグによると、カナダはビジネスを行うのにG20諸国で最高の国である。

出所: フォーブス、ブルームバーグ

比類ない優れた市場 アクセス

カナダとEUの包括的経済貿易協定(CETA)が発効されると、カナダの外国投資家には北米自由貿易協定(NAFTA)圏ならびに欧州連合への優先的アクセスが保証されることになります。これは、GDP合計37兆米ドル、世界の物品サービス生産のほぼ半分を占める活発な市場へのアクセスを意味します。

出所: 世界銀行

低い法人税率

カナダの総法人税金費用はG7諸国中群を抜いて少なく、米国と比べると46%低くなっています。

出所: KPMG

安定した金融制度

世界銀行は8年連続でカナダの金融制度は世界で最も健全であると発表しています。

出所: 世界経済フォーラム

力強い成長実績

カナダはこの10年間(2006~2015年)、G7諸国中最高の成長率を記録しました。

出所: 経済開発協力機構(OECD)

高学歴の労働人口

カナダの労働人口はOECD諸国中最も教育水準が高く、およそ半数が高校卒業後の高学歴を有しています。

出所: 経済開発協力機構(OECD)

競争力の優れた研究開発 環境

カナダは研究開発集約型の産業分野における事業費用がG7諸国中最小で、米国に対しては27.7%のコスト優位性があります。

出所: KPMG

投資し、働き、住む場所と して素晴らしい国

カナダは世界で最も多文化な国のひとつで、世界水準の大学やユニバーサルヘルスケア(皆保険)制度があり、各都市は清潔でフレンドリーです。OECDの「より良い暮らし指標」では、全般的な居住条件および生活の質について、カナダはG7諸国中トップです。

出所: 世界経済フォーラム

春寒しだいに緩むころ、貴社ますますご盛栄のこととお慶び申し上げます。

在日カナダ商工会議所(CCCJは、ジェットロの協力のもと、「2020投資ガイド」を発行する運びとなりましたことをお知らせいたします。前回のガイドの発行以来いろいろ状況が変わりました。包括的及び先進的な環太平洋パートナーシップ協定、いわゆるCPTPPが発効して1年以上経ち、この協定により、カナダと日本との貿易もより活発化したことは明らかで、日加関係に関与している者にとって期待は膨らむばかりです。

まず、現状を簡単に述べますと、日本にオフィスを構えているカナダの企業は100社を下りません。また、逆に日本のカナダへの投資はアジア圏から最大となり、2018年度には288億ドルでした。日本とカナダは同じ価値観を持ち、非常に良好な関係にあり、経済活動は将来的に、より活発になると思われます。

CCCJは日加の経済活動を促進するためにあり、認識を高め、有意義な関係を築く支援をすることなので、この投資ガイドはCCCJの使命の一環です。

なによりもまず、このガイドはカナダの各州の産業トレンド、およびカナダ全域にわたる「スーパークラスター」のトレンドについて貴重かつ正確な情報を提供するだけでなく、カナダからの投資を歓迎する日本の主要な都道府県の情報も提供します。

第二に、このガイドでは、当商工会議所の概要ならびにカナダ、日本、その他の地域に存在する会員の情報を掲載し、ガイドそのものは当所の流通ネットワークを通じ、日加関係に関与している企業、組織、団体に配布されます。

最後に大事なことです。本ガイドには産業に関する情報だけでなく、CCCJの会員の名簿が記載されており、カナダ又は日本に投資したいと考えている人のために、企業や団体の情報が含まれています。

これら3要素をみてもお分かりのように、CCCJの「2020投資ガイド」は日加ビジネスを追求する人にとって強固な頼みの綱となることは間違いありません。もし貴社が日加関係に関与しているのに、まだ当商工会議所に属していらないのであれば、この機会に是非会員となり、強い絆でつながることをお考えいただければ幸いです。お役に立てることは必然です。

宜しくお願い致します。

在日カナダ商工会議所(CCCJ)

会長

バンフワ ニール

ジェットロは70か所を超える海外事務所ならびに本部(東京)および国内事務所を合わせ約50の国内拠点からなる国内外のネットワークを活用し、イノベーションの促進、対日投資促進、農林水産物・食品輸出の拡大、中堅・中小企業の海外展開支援などに関する事業を重点的に展開しております。トロント事務所でも、当地の農林水産・食品などのパイヤーの発掘、オープンイノベーションを行っている日本企業へのカナダ企業のご紹介、日本からお越しになる中堅・中小企業の皆様への情報提供や商談機会の提供などといった形でご支援をさせていただいています。

カナダは移民の受け入れに積極的に取り組んでおり、2019年時点の人口に占める移民の割合は22%(約830万人、推計)。今後も積極的に移民を受け入れ、経済の活性化を図っていくことを連邦政府は表明しています。830万人の移民の約半数はアジアからの移民で、その中には、出身国にいた時点で、日本製品、日本ブランドを利用、使用していた人も多く、カナダでは日本製品、日本ブランドは大変な人気となっています。こうした中、2018年12月にはCPTPP(環太平洋パートナーシップ協定)が発効し日本からカナダに輸出する商品の関税も下がり(あるいはゼロになり)、輸出に取り組むには絶好の機会となっています。

カナダにはAI(人工知能)の分野で世界のトップクラスの研究者が多数いて、AIの研究、商業化、人材育成などに貢献しているということが、日本にも知られるようになり、AI関連企業の方のカナダ訪問が増えています。AIだけでなく、医療、クリーンテック、フィンテック、自動運転などの分野のエコシステムがカナダの主要都市には形成されており、カナダ企業、大学等と共同研究、協業を行う日本企業も増えています。

日本の企業の皆様には、是非カナダでのビジネス展開をお考えいただきたいと考えております。その際に役立つ情報冊子として、在日カナダ商工会議所と共同してビジネスガイド(Canada in Japan | Japan in Canada) 2020年版を2年ぶりに作成することになりました。1冊でカナダへのビジネスを考える日本の企業の皆様、日本とのビジネスを考えるカナダ企業の皆様の両方に活用いただける冊子です。カナダへの輸出を検討される企業の皆様はもとより、カナダ市場にビジネスチャンスを見出し、進出を検討される皆様にも本ガイドをご活用いただけますと幸いです。

トロント事務所には、「日加ビジネス促進窓口」も併設されており、日加ビジネスが更に拡大・深化すべく、情報提供・貿易投資相談などにも取り組んでおります。カナダにご出張の際には、まずはジェットロ・トロントへお立ち寄りください。

独立行政法人日本貿易振興機構(ジェットロ)

トロント事務所長

酒井拓司

この度の「投資ビジネスガイド」第3版刊行にあたり、在日カナダ商工会議所ならびに関係者の皆様にお祝い申し上げます。

2018年12月30日に発効した「環太平洋パートナーシップに関する包括的及び先進的な協定」(CPTPP)により、カナダと日本の貿易関係は強化され、二国間の貿易と投資が一層拡大する環境が整いました。両国の経済の補完性とCPTPPによる合意の広範さから、今後の成長には非常に大きな可能性があります。カナダ大使館は、CPTPPへの認識を高め、日本とカナダの企業がこの協定によって生まれる機会を十分に活用できるよう支援に努めています。今日までに得られた成果は力強いものであり、私たちは日加間の貿易と投資を牽引している企業と新たに市場に参入する企業の両方に、CPTPPを自社のビジネスにどのように活かしていくかを検討するようお勧めします。

日本はカナダにとってアジア最大の投資パートナーであり、日本からの投資がカナダの成長と繁栄に大きく貢献していることは非常に重要かつ喜ばしいことです。日本の投資家の皆様は、主要経済国への比類ない市場アクセス、政治経済の安定性、ビジネスに関する強固な規制の枠組み、高度なスキルを持つ人材など、非常に優れたカナダの投資環境で得られる多くの利点から恩恵を得ています。一方、多くのカナダ企業も日本市場で活発に事業を展開し、100社を超える企業が日本に拠点を構えて、この世界第3位の経済大国でビジネスチャンスをつかんでいます。

カナダと日本の結び付きはかつてないほど強まり、価値観と多くのグローバルな課題に対する展望を共有する安定した関係を維持しています。国際環境が複雑さを増す中で、両国が開かれた市場と自由貿易の推進に向けた持続的な強い姿勢をはじめとする共通の価値観を守り、強化していくために協力することがこれまで以上に重要になっています。両国は共に、全ての国が恩恵を受けている、ルールに基づく貿易の枠組みを形成する上で中心的な役割を果たし、現在はその近代化を進めるための最前線にいます。

日加関係に鑑み、私はCPTPPが定める最先端の貿易条項が両国間の貿易と投資を新たな高みに引き上げる推進力になることを確信しています。さらにカナダが提供する比類ない価値を考えれば、日本の投資家の皆様がカナダで得られる機会の活用を検討するには今が最適な時期と言えるでしょう。

ぜひこの投資ガイドをお読みいただき、カナダ大使館のトレード・コミッショナーにご連絡ください。日本企業の皆様にカナダが提供するビジネスの可能性を最大限に活かしていただけるようサポートいたします。

駐日カナダ大使
イアン・パーニー

「Invest Japan 2020／インベストカナダ2020」の刊行をお慶び申し上げますとともに、関係者の皆様のご尽力に敬意と感謝の念を表します。

日加修好90周年の昨年、安倍総理が4月にカナダを訪問し、トルドー首相との間で「自由で開かれたインド太平洋」ビジョンの下で戦略的パートナーシップを強化していくことで一致しました。その後もトルドー首相がG20大阪サミットに出席し、シャンプーニュ外相も初の外遊先としてG20外相会合の機会に名古屋を訪問するなどハイレベルの対話が活発に行われています。経済分野では、昨年12月に日加次官級経済協議が行われ、WTO改革やCPTPP(環太平洋パートナーシップに関する包括的及び先進的な協定)を始めとする自由貿易体制の強化、エネルギー・インフラ・科学技術・観光・環境の課題等幅広く議論しました。今後、これまでの良好な日加関係を、特にアジア太平洋の文脈で発展させ、さらに具体的な行動に結びつけていきたいと考えています。

世界有数の資源国・農業国であるカナダは、歴史的にもエネルギー・鉱物資源の採掘や農林水産品の生産などが盛んですが、その一方で、人工知能(AI)や量子コンピューターなど先端分野においても世界有数の強みを持っている技術最先進国でもあります。近年、生活コスト、就労ビザ取得などの就業条件や良好な治安などにおいて優位性のあるカナダには、世界トップ研究者、大学、研究機関、投資家、スタートアップ企業などが集積し、有機的に連携する「エコシステム」が複数地域に存在しており、世界中から高い注目を浴びています。

日加両国の皆様には、この冊子を活用いただき、積極的にビジネスチャンスをつかんでいただきたいと思います。在カナダ日本国大使館及び総領事館としても、ジェトロ、カナダ政府等と緊密に連携し、日加両国の企業を積極的に支援してまいります。日本による活発な投資が日加両国企業の成長を促し、日加両国の経済のさらなる発展につながることを祈念いたします。

駐カナダ日本国特命全権大使
川村 泰久
